Figure 2-1. Locations of Honeywell Former Facilities and Referenced Disposal Areas near Onondaga Lake
Figure 2-2. Periods of Production and Production Milestones for Major Product Lines at the Syracuse Works

Soda Ash
- Refined bicarbonate of soda
- Snowflake (sodium sesquicarbonate)
- Sodium nitrite
- Ammonium bicarbonate
- Ammonium chloride
- Calcium chloride
- Caustic soda

Chlor-alkali
- Caustic soda (Willis Avenue)
- Caustic soda (Bridge Street)
- Caustic potash (Willis Avenue)
- Chlorine
- Potassium carbonate
- Potassium bicarbonate

BTX/Chlorinated Benzenes
- Benzene, toluene, and xylene
- Chlorinated benzenes
- Hydrochloric acid

Note: TPY = tons per year
